

Scheduling Your Surgery

What to expect after surgery is recommended

Dr. Barrera has recommended surgery. Here is what to expect next:

- **Dr. Barrera's surgical scheduler** (listed below) will call you typically within the next 1 to 2 business days to confirm your surgical date, review pre-operative medical clearance, go over your medications, and answer any questions you may have.
- The **timing of your surgery may shift** during the week leading up to the procedure to make room for emergency cases.
- **The surgery center will call you the day before** your procedure to confirm your arrival time and your eating and drinking (NPO) instructions.

Your surgical coordinator depends on where your surgery is scheduled. Dr. Barrera will circle the row that applies to you. For any questions about scheduling, call the number listed.

Surgery at NYU Langone
Genesis Seaton
